**What is a parenthetical reference?**
A parenthetical reference is a reference within the body of your paper to one of the sources listed in your Works Cited list. It indicates to your reader exactly what you derived from the source, and specifically where it can be found. You need to write a parenthetical, or "in-text" reference, whether you quote the material directly from the source, paraphrase it in your own words, or refer to an idea derived from the material.
What is a journal?

A scholarly journal is published periodically. It is intended for members of a profession and contains:

- Original research
- Critical analysis
- Review of prior research (called a "literature review")

Occasionally journals will have:

- Interviews
- Reviews
- Editorials
- Letters to the editor
- Advertisements

These items are not peer reviewed.

Title: Looking before Watergate: foundations in the development of the constitutional challenges within signing statements, FDR-Nixon

Author(s): Kevin A. Evans

Source: Presidential Studies Quarterly, 42.2 (June 2012): p390.

Document Type: Essay

Abstract: How did the signing statements of the modern presidency before Watergate shape the development of the tool and contribute to its institutionalization? A content analysis of the 626 signing statements from 1933 to 1974 shows that the Eisenhower, Johnson, and Nixon administrations set important precedents for the modern constitutional use of the tool by protecting the institution from legislative vetoes and perceived encroachments in regard to foreign affairs and executive privilege. The results reveal that the constitutional logic required for the growth of challenges is rooted in this era and that Watergate served to amplify a trend that was already in motion.

The people of this country did not elect me to this office to preside over its erosion. And I intend to turn over this office with all of its responsibilities and powers intact to the next man who sits in this chair.
