I learned how students use words to communicate and express themselves. The third grade example showed how young students use inventive spelling to form words and messages with meaning. Learning how to express thoughts through writing is an important skill for students to know, as in the writing example from the fifth grade students. Even though his writing sample was not perfect, he was able to plainly say what he wanted in a clear manner. The sample provided by the seventh grade student demonstrated how parallel structure is important for balanced writing.

Many factors contribute to good writing. It needs to flow while conveying a message to its intended audience. At times this can be a difficult task for students with disabilities. While two of the samples were handwritten, one was typed due to the student’s inability to write by hand. However, by typing the message, he was able to clearly communicate his thoughts to form a meaningful message for the reader. There is a clear relationship between reading and writing which was demonstrated in all three samples.
