Searching Tutorial

Locate a website on your topic
Choose WebPath Express
Each month, there are featured articles.
Type in your broad topic here
Number of total results are listed here.
You may choose to look at only those sites that are high school level.
Now the results go down; only those appropriate to 9-12 are shown.
Notice that each website has a 9-12 icon.
To look at the site, click on the **title** or **URL** listed at the bottom of the description.

**Smoke gets in your eyes**

Don't miss this well-rounded site on the many and various aspects of smoking. Created by the 'Why Files,' this engaging, easy-to-read site provides information about the chemicals in nicotine, what they do to the body, and the relationship between nicotine and addiction. It also features the Food and Drug Administration regulations, the influence of cigarette advertising on kids, and ways to quit smoking. Don't miss the curious details on dopamine and love! This site includes a glossary, bibliography, and key words within the text that link to more information.

**Topic:** Smoking

**Action on Smoking and Health**

If you had lived in the United States thirty years ago or have traveled in modern Europe you understand that smoking is a problem that has only begun to diminish. We know more and more about the dangers of smoking, including second hand smoke, than we ever did before but smoking is still widespread. Action on Smoking and Health is an United Kingdom group that is dedicated to informing the public about the health risks of smoking and strives to create public spaces free of smoking. Come read about the health dangers associated with smoking as well as what this group is doing to help smokers.

**Smoking: Cutting through the hype**

Here is a great site for teens that examines various aspects of smoking. Learn how to recognize deceptive cigarette ads. Find out how you are being manipulated by tobacco companies who want you to become addicted. This site discusses topics such as the reasons teens smoke, the myths, the difficulty of quitting, the truth about smokeless tobacco, the undesirable side effects, the risk of disease and how you can quit. Related information can be found in other articles and resources.
