Directions: Unfortunately you have contracted the following disease:

______________________________

Due Date: ________________

Please research information about your disease and answer the questions below. You will gather your research information from the reference materials available in the library and use the internet sites below as a source for information. You may use as many sources of information as necessary to find the answers to the questions 😊.

Centers for Disease Control and Prevention - http://www.cdc.gov/

National Institutes of Health - http://www.nih.gov/health/

Kids Health - http://www.kidshealth.com

Things you need to know and include in your project:

I. Description of the Disease:
1. Name of Pathogen:
   
   What is the pathogen that causes your disease?

2. Origination of Disease:
   • Where did it start?
     
     • Is it in United States?
     
     • Where is it now?
     
     • When does it occur? Is there a certain time of year? How common is it?
     
     • Why has this happened? Is it something in the environment?

II. Transmission: List 3 ways your disease may be transmitted.

   •
   
   •
   

III. Incubation: What is the time after contact with the pathogen?
IV. Symptoms: List 3 symptoms.

- 
- 
- 

V. Duration: How long does the disease last?

VI. Treatments:

1. Cures?

2. Remedies?

VII. Prevention: How can the disease be controlled or prevented (list 2 ways)?

- 
- 

VIII. Works Cited: At least 3 sources (2 different) in MLA format. Use Noodle Tools.

IX. Project Presentation: Make sure you include or consider how well you present the following:

- Title Page (Name, Date, Period #)
- Free of Spelling/Grammar Errors
- Creativity/Originality
- Graphics/Visuals
- Neatness
- Delivery of Presentation
